Leading Breeders • Superior Alpaca Genetics

www.AmberAutumnAlpacas.com

As you review the catalog, all the juvenile and yearling entries are definitely show quality with an excellent chance of winning a blue ribbon and possibly a color championship for their new owners in very competitive shows. Many of the alpacas offered have already won blue or color championships.

All eligible sale alpacas will be nominated to the 2020 Futurity and will surely have a chance of winning more awards. We are very pleased to be able to offer this kind of quality. Last year, several alpacas went on to championships at both Nationals and Futurity shows!

For our international buyers, Amber Autumn Alpacas offers a fully approved quarantine facility as well as transport to Canada for our Canadian buyers and for additional quarantine in Canada for our European buyers.

Please come and join us in sunny Phoenix for food, fun, and laughter! Put your hands on some stunning alpacas. Enjoy a nice Winter break!

We look forward to meeting and hosting all of you on February 21st & 22nd, 2020.

Best,
Mark, Daryl and Shirley

Dear Fellow Alpaca Breeders,

For the past six years it has been our pleasure and privilege to work with Daryl and Shirley Krause on the production of the "Amber Autumn Annual Auction." Their unparalleled hospitality, the care they take of their consignors and buyers, and the alpacas offered in the auction have propelled this event to the forefront of the alpaca auction scene.

At the auction, buyers have the opportunity to purchase world quality alpacas (many of whom are already show winners) in an environment with February temperatures in the 70-75 degree range, at a luxury hotel which offers Las Vegas style gambling and deluxe accommodations! Whether you are new to alpacas or a veteran breeder, the Amber Autumn Auction is truly a "must attend" event.

It is indisputable that the current alpaca market demands ever increasing excellence. The farms participating in the auction are proven winners in the show

ring and their production is among the most sought-after in the alpaca industry. This weekend, they are making many of their very best alpacas available to you. A purchase at this sale is truly an investment in your future success!

On behalf of Daryl and Shirley, and their guest consignors, we invite you to put away the snow shovel, grab your sunglasses, and come join us. It will be The Most Fun You Will Have All Winter!

Sincerely,

Tim & Teresa Vincent

Terms & Conditions

1) The following Terms and Conditions, as amended by any posted notices or announcements by the Auctioneer during the auction, constitute the entire agreement between Amber Autumn Alpacas, Celebrity Sales, or guest consignors (the Seller), on the one hand, and bidders at the auction, on the other hand.

2) WARRANTIES:

A. PROVEN PRODUCERS: A proven producer is a female that has already had a cria. Proven producers will be considered to be fertile. There are no expressed or implied warranties for proven producers. * If abuse or neglect occurs to a purchased alpaca(s) while in the possession of the buyer that results in lost pregnancy and/or infertility, this will nullify all warranties.

B. NEWBORN CRIA: There are no expressed or implied warranties for new born cria sold with their dams.

C. BRED MAIDENS: A bred maiden is a female that has not yet had a cria and is determined to be pregnant. If the cria is not born alive or fails to survive to 48 hours, the Buyer will receive a rebreeding at no charge to a male owned exclusively by the Seller. Buyer must notify Seller within 24 hours of the still-birth / death of the cria, and the Buyer must use the breeding within 6 months from the date of still-birth / death of the cria. This breeding is non-transferrable to any other alpaca. Birth of a live cria that survives 48 hours from birth shall be considered fulfillment of the warranty, and at which point the warranty ends. There are no other expressed or implied warranties for bred maidens.

D. MAIDEN FEMALES: Young females sold as individual lots are guaranteed to have the ability to become pregnant by the time they reach 36 months of age and to give birth to a live cria. Each of these females is sold with a complimentary first breeding to a male owned exclusively by the Seller, at the Seller's farm. The female must be delivered to seller's farm for breeding before the female reaches 24 months of age. The female must NOT have been bred or been exposed to any other male prior to delivery to the Seller. Should the buyer fail to deliver the female as set forth above, or if female has been bred/exposed to a male not owned by the seller, all warranties either implied or express are void, and no breeding will be given. If the cria is not born alive, the buyer will receive a rebreeding at no charge to a male owned exclusively by the Seller. This breeding is non-transferrable to any other alpaca. Birth of a live cria that survives 48 hours from birth shall be considered fulfillment of the warranty, and at which point the warranty ends.

*If the Seller cannot confirm pregnancy by 36 months of age, the Seller will replace the original female with a female of like quality. Additional health charges unrelated to reproductive issues and transportation to the Seller will be at the expense of the Buyer.

E. PROVEN MALES: A proven male is a male that has settled a female or which has been tested fertile. Proven males will be considered to be fertile. There are no expressed or implied warranties for proven males.

F. YOUNG MALES: Young males have been checked by a veterinarian and have been found to have anatomically normal reproductive organs. Young males are warranted to have the ability to impregnate a female by the time the male is 42 months of age. Warranty shall be considered fulfilled with the first confirmed impregnation of a female, at which point the warranty ends. The Seller is not liable for circumstances beyond their control causing infertility. This includes while the male is in the possession of the Buyer. Young male alpaca(s) must be fully body shorn annually before temperatures exceed 80 degrees Fahrenheit. Failure to do so shall void the warranty and Buyers insurance policy will be the sole source of remedy.

*Should the male be incapable of impregnating a female by 42 months of age, the male will be returned to the Seller for a period of 120 days, during which time the Seller must prove the male's ability to impregnate a female. If within the 120 days, the male is not capable of impregnating a female, the Buyer shall be entitled to remedy. Remedy shall be either replacement with a similar quality male alpaca or at the option of the Seller, a refund of the purchase price.

G. Young Females and Young Males: Seller must be notified in writing by the Buyer's veterinarian of any claimed abnormality with in 12 months of sale. Seller will, at Seller's option, either: (1) replace the alpaca with an alpaca of equal quality, (2) give the Buyer credit toward the purchase from Seller of another alpaca of the same or different sex in an amount equal to the total amount of the purchase price or (3) give a refund of the purchase price paid at the auction. All alpacas must be cared for in a manner consistent with generally accepted industry practice. Failure by the Buyer to do so will void all warranties either express or implied.

EXCEPT AS EXPRESSLY STATED ABOVE, SELLER MAKES NO WARRANTY OF MERCHANTABILITY AND NO WARRANTY OF FITNESS FOR ANY PARTICULAR PURPOSE, NOR DOES SELLER MAKE ANY WARRANTY EXPRESS OR IMPLIED OF ANY NATURE WHATSOEVER WITH RESPECT TO THE ANIMALS IN THIS SALE.

The foregoing is the full extent of the responsibility of the Seller, and by way of illustration and not limitation, in no event shall the Seller be liable for incidental or consequential damages, or for any changes or expenses of any nature incurred without Seller's written permission.

3) TERMS:

A. Cash Sale: Terms of the sale are cash and payment in full must be made to the Cashier immediately following purchase; personal checks are to be payable to CELEBRITY SALES. Seller reserves the right to require a certified check as settlement before releasing the animal.

B. Financed Sale: Seller may elect to finance a sold alpaca. For sales of \$7,000 or less, terms are: 50% down to be paid by the buyer, immediately following the purchase at the auction, with the balance due and payable in 180 days, interest free. For sales of more than \$7,000 and up to \$20,000, finance terms are 35% down with a fixed rate of 5.0% for a term of 18 months, with a term of 36 months for all alpacas sold for more than \$20,000. Payments are to be made monthly unless arranged otherwise with seller. All alpacas being financed must have proof of insurance naming the Seller as Loss Payee. Buyer must maintain mortality insurance on the animal in the amount of remaining balance until paid in full with the seller named as the loss payee. Buyer will be required to sign a promissory note and a sales contract. Possession of the financed alpaca will be solely at the discretion of the seller.

C. Registration papers for a financed alpaca(s) will not be transferred into the buyers name until the financed alpaca(s) have been paid for in full. All cria born from financed females will be registered in the Sellers name until the alpaca(s) is paid in full. All signed certificates for services performed from financed males will be signed by Seller at time of breeding until the alpaca(s) is paid in full. Any and all monies generated from the financed alpaca(s) including but not limited to the sale of offspring, breeding fees, and insurance proceeds, will go against the unpaid balance owed to the Seller until the Seller is paid in full. Buyer is responsible for all transfer fees.

D. In the event the scheduled payment of a financed alpaca(s) is not received within 10 days of the due date, Buyer agrees to pay the seller a penalty payment of \$250 per late payment. Additionally Buyer agrees that they will pay a \$250 service charge on any NSF checks. Should any payment become 30 days or more past due, this note shall be considered to be in default. In the event of any default, any remaining balance, including accrued interest and penalties shall be immediately due and payable in full.

4) BIDDING/AUCTIONEERS ROLE: The Auctioneer is not an employee of Celebrity Sales or Amber Autumn Alpacas and is an independent contractor utilized for the auction. The highest bidder recognized by the Auctioneer shall be the Buyer. Bids tendered after the fall of the hammer are not valid grounds for dispute. If any dispute arises between two or more bidders or in the event of doubt on the Auctioneer's part as to the validity of any bid, the Auctioneer will have the final discretion either to determine the successful bidder, or to re-offer and resell the alpaca in question. The Auctioneer's determination is conclusive and not subject to challenge. The Auctioneer reserves the right to reject any bid.

5) TAPE: A tape recording will be made of the entire sale which shall be used to settle any questions regarding statements made about animals while they are in the auction ring.

6) TITLE AND DELIVERY: Title will pass to the Buyer upon full payment of the purchase price. All risk of death or injury to the alpaca becomes the Buyer's risk upon the fall of the hammer. Each buyer shall sign an "Acknowledgement of Purchase." Please write your full name and address clearly.

7) INSPECTION OF ANIMALS. Buyers are urged to inspect the animals prior to the sale. Any questions regarding the animals that are not contained in the sales catalog should be directed to the Seller and not to Celebrity Sales. Buyers are urged to carefully examine the animals and familiarize themselves with pedigree and other information prior to bidding. Buyer should review all ARI registration and health information of the animals prior to sale. Animals in the auction may have been shorn, trimmed, or cleaned for health and/or presentation reasons. Failure of Buyer to perform due diligence shall not be grounds for modification or rescission of purchase.

8) DEFAULT OF PURCHASE: If any person shall purchase a lot and fail to pay for it in the manner described above, the

Seller shall have, in addition to all other legal rights, the right to resell the lot, or at Seller's option, bring an action for specific performance, in which event the defaulting Buyer agrees to pay all costs of such suit, together with all reasonable attorney's fees and costs. In the event of a resale, the defaulting Buyer agrees to pay all costs of resale, plus any deficiency between the original total purchase price and the total purchase price upon resale.

9) TRANSPORTATION: The Buyer, at Buyer's own expense, shall transport the alpaca(s) from the auction. Any arrangement or disposition of the alpaca after purchase other than immediate removal must be made directly between Buyer and the Transporter or Seller. There will be transporters available at the auction to deliver the alpaca(s) to the buyer's farm. If the buyer needs agistment with the seller, arrangements can be made for the alpaca(s) to be transported and boarded at the seller's farm.

10) CATALOG: Every effort has been made to assure correctness of the catalog, but the Seller is not responsible for errors or omissions. Any corrections made to the catalog at the time of the sale from the Auctioneer's podium shall supersede the catalog.

11) NO LIABILITY: Any person attending the sale, whether as a Buyer, observer, or the agent, employee or assign of any person, does so at their own risk and no liability, duties, obligations, and/or responsibilities of any kind or nature shall be imposed upon Seller, Amber Autumn Alpacas, the Auctioneer, Celebrity Sales, Tim Vincent, or any owners, employees or assigns, for any accident, injury, mishap, theft, damage and/or other harm regardless of cause.

So Frosty Fantasi is our lot #1. This little girl is one of our special Snowmass/Accoyo America crosses. We vowed we would not sell any of our Polaris bloodlines as we lost him much sooner than expected. In her first two shows she won two blues and a banner. We expect her to win more before she is done. Her fleece photo does not do her justice as it only shows four months growth. Very nice conformation, pretty head, perfect bite, dense bright fleece with good character, exceptional fineness and uniformity. Her impeccable pedigree includes several of the top herdsires and stud dams in the alpaca world. For serious white breeders, this is a no-brainer. Bring Frosty Fantasi back to us for her maiden breeding when of age. She sells with our full ranch guarantees and a live birth guarantee. Sad but excited for her new owner, we know you will appreciate her as much as we do. Congratulations on a very, very, wise purchase!!!

She is sired by Treasure Valley's Tres Equis, who resides on the East Coast. His offspring have been knocking it out of the park recently. Greycious's full sister Reverie was awarded the National Grey Champion for a second time and the prestigious advanced fleece award at the 2019 National Fleece Conference. Her paternal brother Rosehaven's Triple Threat took a Judges Choice as a silver grey male at the 2019 Empire Showtacular and has garnered multiple championships. Irish Meadows' Black Velvet is a rare true black daughter of the phenomenal Snowmass Matrix! Black Velvet is beautiful with her stove pipe leg coverage, boxy conformation, and full head coverage. This eye catching girl has gorgeous black fleece, super soft and long, with nice brightness and crimp. Black Velvet can come with a breeding to any of our herdsires, but we recommend our 19 time champion true black male, Jacob Black. We feel that match will produce a showstopping black cria! If you love classic grays and want to try for a gray offspring, we have eight time champion Irish Meadows Showtime, or nine time champion Estates Pure Reflection to choose from. Either classic gray male will be a great service sire choice! True black daughters of Snowmass Matrix are rare, and ones with a beautiful phenotype like this little girl are even more rare. Black Velvet will be a great foundation female for any farm for many years to come!

We didn't see this one coming. Two black parents sponsoring a modern gray offspring was not on the radar. That said, what a wonderful gift! Melquia has a striking fleece, especially when you get down to the quasi-microscopic level. Her uniformity of micron between the dark and light fibers is virtually indiscernible. No doubt this is why she has such an amazing histogram and scrumptious handle. Melquia sells with her first breeding to one of our studs and that breeding is non transferrable. For that first pairing we would likely select Crescent Moon's Emmaus.

Rock solid planted to the ground, coverage to his toes, short square muzzle, dense soft handling very bright fleece displaying HF crimp, great staple length, very nice fineness and uniformity. Truly a special macho. His dam Teyha is the top dam on our ranch. All of her sons are on our stud row. Taylor Made X Eclipse, Terrill X Principio, Troy X Sizzle, Turbo Tribute X Signature, and has a black male at side by Eros. Her daughter Tehani follows in her footsteps, her son Titus was 2nd & Res. Picture a beautiful white Crescendo daughter, just turned two, carrying a very dense fleece that is fine, bright, soft and consistent. That's not all she is carrying, as she is confirmed pregnant by Defiance son, Perfect Storm. That lovely image in your head is Santa Ana, an exceptional female who has checks in all of the boxes.

It will be hard to improve on that, but multi-champion Perfect Storm is up to the challenge. His 2019 fiber stats are 17.2, 3.0, 17.3 and 0.2. His EPDs are great, with half of the traits ranking in the top 2% or better. Storm will likely advance Ana's excellent traits even more, blending the best of the Crescendo and Defiance lines.

Elite's Crescendo is a full brother to The Elite Maximus and Rico Suave, well-known studs who made an impact on the national herd but have since passed away. Crescendo continues the legacy and turned in these 7th year fiber stats: 20.0, 3.2, 16.1 and 0.5.

Clearly, Santa Ana is blessed with proven genetics. Let them work for you.

2019 A-OK Alpaca Blastoff - 1st & Reserve Champion

Silver Prince has a bright future ahead of him. The judges seem to think so as well. In two shows, he has garnered two blue and two Reserves. He is following in the footsteps of his Futurity winning sire, Crescent Moon's Aquinas. Does not hurt to have Peruvian Bellagio for a Maternal Grand Sire as well. Tell Hot Shot produced all kinds of uniquely colored alpacas, as did Peruvian Camilio, Peruvian Jericho, and Peruvian Andrajo, ergo Mr. Roosevelt. A very diverse pedigree of color and excellence. Silver Prince displays very nice density, staple length with high frequency crimp style and very uniform architecture. We have no doubts that Silver Prince will go forward with an excellent show record garnering a pile of banners. We predict he will then become an outstanding herdsire for his astute new owner!!

I can hear it now....."Why are you selling her? She's amazing!" Well, we agree! Euphoria is flat-out stunning. In every way she is exemplary as both a show and breeding stock gray female. We have no doubt that she will be a multi champion before she is a producer of champions. We are thrilled that she has the Crescent Moon moniker in her name and we will watch with pride and gratitude as she makes her new owners proud. Euphoria sells with a non transferrable breeding. Sparkle is a very nice genetic fusion of Eclipse Alyst crossed over a Principio daughter. Exhibits all the traits one looks for in a future production dam. Bright eyed, correct phenotype, perfect bite, very fine HF fleece with exceptional brightness, nice alignment, soft hand, nice staple length. Eclipse had exceptional staple with fineness maintained until he passed. Principio is incredibly dense and his histogram at eight years of age is as follows: 18.1, 3.6, 18.3, 1.5%>30. In her first two shows she won two blues and a color championship. We felt that at 16.1 micron and with her exceptional pedigree she was certainly worthy to be in our auction. We think you will agree. Show her then bring her back for her maiden breeding. Congrats to her new owner! We guarantee that her progeny will make you very, very happy!!

Divine Nugget is as described. When you open her fleece, you will understand. Beautiful density & brightness, uniform crimp character and uniformity well into her extremities. Pretty head, nice conformation, good substance of bone. She has some growing to do, but is coming along nicely. Incredible pedigree on this girl. Snowmass Divine Love over a Snowmass Pure Reserve daughter. Both of these sires have been sold out of the U.S. making this genetic cross very rare. Add in others like Snowmaster, Accoyocusani, Caligula, Matrix, Jesusa, Maree Love, Simply Scrumptious, Hemingway, ATV Adonis, Peruvian Lace and more. It just does not get any better than this! We are selling this female very reluctantly, but, we put in our best. Show Divine Nugget until spring then bring her to us for her maiden breeding in June/July. We have several nice options. Principio, Taylor Made, Cavalier, Eros. Hope for a male! Herdsire. Bingo! Very, very, good decision!!

Crescent Moon's Accoyo Augustine

Augustine as a juvenile

Very shortly after Augustine was born, we knew we had something very special.

1. Full Accoyo (we knew that when we selected the mating)
2. Fawn (that means he would likely sponsor color readily and has)
3. A fabulous and not all too common pedigree. (A direct son of 6Peruvian Accoyo Titan 5055 IMPT98 and a Champion Accoyo America Polaris daughter)
4. A cross between the A and B lines of the Accoyo herd
5. Impeccably conformed
6. Stunning head type
7. Agreeable personality
8. And fleece that fit the billing in every way.

Once his mammoth show career was complete, the only thing left to observe would be his record of production and wow, has he produced. His offspring have claimed championships and high placing ribbons in all shows they've attended throughout the country. To say we have been blessed with him as a lead stud is an understatement. Along with our partner (Odin Falls Alpacas) we proudly offer Augustine for your consideration. Grab a partner or do it alone. You won't regret it!

Dark genetics run deep in this one. CCNF Mariana's dam, Margarita, is a maternal daughter of the famed black Peruvian import, 6Peruvian Ajoyani, who was likewise the dam of 5Peruvian Red Hot and Snowmass Midnight Magic. We had acquired Margarita some years back from our old friend Pat Badger in order to add some quality and genetic diversity to our colored breeding program. Mariana is a dead ringer for her maternal grandsire, CCNF Royal Ring of Fire, at the same age and it is only the presence of her older maternal sister, CCNF Ajoyani, that allows us to part with this lovely young female. Already possessing the blood of both Elixir and Matrix Majesty via her Champion sire, CCNF Dreadnought, we offer her here with a full reproductive guarantee and a future breeding to Futurity and AOA National Supreme Champion, Irish Meadows Elite Max!

Infinite Fineness. Infinite Brightness. Infinite Possibilities. TP Infinite Amaryllis has the pedigree and the traits to back up this promise. Her pedigree mirrors her possibilities. She is the product of a magical combination of genetics: CCNF Infinite Amaryllis (CCNF Elixir X CCNF Ascension) and TP Matrix Jubilee (Snowmass Matrix X Valedar's Parfait). She has excellent EPD's across most traits. With her pedigree, EPDs, and phenotype, she has all the ingredients to be a stud female on any farm as a producer of Elite quality White fleece. She has won two fleece award certificates for fleece scores above 80 points for her juvenile fleece. The fleece she is currently growing is even better. We are reluctantly offering her for sale at this auction as I believe she could easily be part of our improved foundation of females.

Magically Delicious was just as ordered. A true black Signature daughter out of a pure white Ulysses daughter! How often does that happen? Her fleece displays nice fineness, great density, good staple length & brightness, medium frequency crimp with nice alignment and bundling. A nice mixture of Peruvian Accoyo genetics in this pedigree. We feel that she will more than likely produce grey progeny when bred that way. Show Magically until spring then bring her back for her maiden breeding. We would recommend Amber Autumn Ameretto, our XXXTreme Legacy XXX son. A very handsome true black, he sports a histogram in 2018 at 5 years of age: 21.0, 4.0, 18.8, 1.8%>30. Black or grey, breed her either way. You will be happy!!

If you are going to view your alpacas every day, they may as well be attractive. They do not come much prettier than little Abby. She is adorable. Very attractive head, good bite, good substance of bone, coverage to her toes. A beautiful dense soft handling fleece exhibiting exceptional brightness, fineness, character, and uniformity well into her extremities, as proven by her histogram. Very expected when you study Abby's pedigree. Abby's excellence did not happen by accident. She is a fusion of some of the best Accoyo Alpacas in North America with some of the best alpacas out of the Snowmass program. Abby can be shown until the end of the show season if her new owner would like to gather more ribbons and banners before bringing her back to Amber Autumn for her maiden breeding. We think a breeding to Taylor Made would be an excellent choice.

Sugar Baby is a super star black! Hard to get the density, staple length and fineness in a true black but this female has it. Very bright, high frequency crimp, with nice alignment well into the extremities. Carbon Copy crossed over a STLR Comet daughter. A little different pedigree on this girl. Peruvian Black Knight, Peruvian Aristocrat, 6Peruvian Conan, on the top side with Kryptonite, Camilio, Victor, and Caligula on the bottom side. Nice genetic diversity. Sugar Baby will be ready for her maiden breeding early spring. We would recommend you bring her back to Amber Autumn to see our true black macho "Ameretto." In 2018 at 5 years of age his histogram reads: 21.0, 4.0, 18.8, 1.8%>30. Exceptional fineness for a true black breeding male! We think this is a match made in heaven for true black breeders and will result in a beautiful true black cria!! Lotto winner!!

Several top sires and dams in this pedigree. Andean Gold, Andean Bronze, Bueno, Casanova, Accoyo Elite, Maree Love, Legacy, Little Miss Jennifer, Snowmaster, Royal Rose, Cangalli, to name a few. We invite you to sink your hands into this luscious fleece and you'll be easily convinced that this young female should be in YOUR program! Her sire, Principio, has proven himself time and time again – Anna is no exception! Anna is a top shelf girl and she has the razzle dazzle that judges look for in fleece characteristics, brightness, density and fineness. Did we mention staple length ... oh my! She is a granddaughter of Mr. Sizlin Rose (mega-champion) and carries genetic greatness.

In looking at Red Granites Sizlin Pinar, one looks at the pedigree of combining East and West coast genetics. West Coast: Quechua, Matrix, Matrix Rose, Sizlin Rose, Red Hot, Sizlin Hot. East Coast: Matador, Black Mesquite, Bugatti, Dakotia, Jericho, Running Late. Great Great Pedigree. Pinar, like most Sizzy offspring, has a fabulous disposition with the fleece to go with it; fine, dense and extremely bright. Pinar comes with a breeding and we would recommend one of our Legionnaire offspring. One of them might be Red Granites Aragon who is proven with several crias due this spring. At 3 plus years old, this years micron test showed MFD of 14.9, SD of 3.2, CV of 21.7, SF 14.6, %>30 0.2 MC 54.5, these are his highest numbers to date except for the MC, which is his lowest.

The crossing of our top gray foundation dam with A Paca Fun's Sonic Shift made perfect "Harmony"! Do not be fooled by her rich brown color, she is in fact a gray in disguise. Harmony's conformation is spot on. Her fleece is buttery soft, incredibly long and her histogram is what we call, "perfect harmony." Her low 16.88 micron status is almost equaled in her CV, with a low SD of 2.85, exemplifying a very uniform fleece. Our first Sonic Shift female cria and one hard to part with, but when we decided to enter the auction world we made a commitment to only enter our very best, Harmony is that! At Heart & Soul we are very particular in our breeding choices. Each decision we make working towards our goal of producing excellence in improving every dam is not always an easy task. We chose gray, Annual's Bea-2 Bomber to complement Harmony. His offspring have already landed over 46 banners! He brings a style we love with an incredibly bright fleece potentially creating a harmonious bomb!

Cinnamon is the first progeny sold from our Nautilus son "Grandstand." Obviously the fineness gene worked here. Genetic diversity with Nautilus (top & bottom), Jeremiah, Eclipse Alyst, & Accoyo America Navigator (Nautilus) in the sire mix, then add "Gianna" (incredible female), Priscilla Alyst (produced more colored sires than any other female in Canada) & Charmed (Laredo Granddaughter) and you have all the ingredients for an incredible production dam. The judges agree. Many choices for black & brown breeders but "Ameretto" (true black) is one. Or "Sizzlin Rose", or "Legionnaire" or "Taylor Made." Cinnamon displays a very dense bright soft handling fleece with nice character and staple length. Show her until spring for more banners! Bring her back to us for her maiden breeding. All upside here. Sells with our full ranch guarantees. We guarantee that her progeny will bring her new owner success, and a lot of blue & Banners!!

So potent and valuable are his genetics, that it is decidedly rare that we offer any direct offspring of Snowmass Elite Legend for sale. It is even more rare that the offspring in question be the full sister of 3x Futurity Herdsire of Year, CCNF Elixir! CCNF Mhari combines the world class genetics of her rock-star sire with those of the inimitable CCNF Archangel courtesy of her Champion dam, CCNF Ascension, whose own dam was, in turn, none other than the mighty 5Peruvian Cangalli (take a little time perusing the AOA database if you need to know why that matters). Needless to say, Mhari comes by her soft buttery fleece, phenotype, conformation, and presence quite honestly. Sold with a full reproductive guarantee, we offer her here at the Amber Autumn Auction with a future breeding to the buyer's choice of Futurity Champions CCNF Priam, Irish Meadows Elite Max, or Snowmass Matrix Majesty!

This attractive female has all of the ingredients needed for a wonderful production dam. Eros worked his magic here crossed over a Jericho/Jeremiah/Mr. President daughter. We also mixed in some Royal Fawn/Vengador on the top side. Pepper shows very nice phenotype, an attractive head, strong well balanced frame, and perfect bite. Her fleece displays density, fineness, staple length, high frequency crimp, and uniformity well into her extremities. We expect her 2nd fleece will be stunning. It will be difficult to improve on Peppers fineness and density, but we feel that the one macho we have that can do it is EL Duro's Principio. This will bring in the Legacy genetics as well as a bit more Royal Fawn. Principio is extremely dense and fine with a high frequency crimp that has great character, alignment, and brightness.

His histogram at 8 years of age reads: 19.5, 3.6, 18.3, 1.5%>30. We think this match will result in a magnificent cria for her fortunate and very wise new owner. Blackjack!!!

TP Touche of Pure Joy is a delight. She has been too young to show yet but is well proportioned with a beautiful, stylish head. Her fleece is already demonstrating elite fiber characteristics: fineness, density, brightness and gorgeous stapling and crimp. She will be fun to show and it will be exhilarating to see what she can produce. Her half sister, TP Pure Charm, was white female color champion as a juvenile and has the finest fleece with the heaviest shear weight in our group of yearling females this year. I fully expect that TP Touche of Pure Joy will perform equally well. She has all the makings of a stud quality female who will be able to produce award winning cria for you after she makes her own mark in the show ring.

Style, color, gorgeous fleece, that's Cosmopolitan! We loved this outcome so much we repeated the breeding! At Heart & Soul, we are very particular in our breeding choices with each decision we make working towards our goal of producing excellence and improving the dam, not always an easy task. We feel combining the style and color of EZ Duzzit with "Polly's" dam Violet's uniformity and consistency did exactly that! Cosmopolitan is stunningly beautiful in the color we love most with tight zipper crimp fleece and a lot of it, and a head style we love, to boot. She is a hard one to part with but when we decided to enter the auction world we made a commitment to only enter our very best and we feel Cosmopolitan is exactly that. "Polly" comes with a breeding to any of our sires, but our recommendation is A Paca Fun's Sonic Shift. His extreme density and bright fleece style combined with her exotic look is bound to make a home run cria that any gray breeding program would be proud to have.

This pretty Principio daughter no doubt has a special future in front of her as a production dam. All of our Principio progeny display exceptional hybrid vigor and are very robust. We find that his females all have an abundance of milk and birth out healthy, strong cria with nice birth weights. That makes our birthing season much less stressful. Natalie displays a very dense bright low amplitude soft handling fleece with very good fineness. Very attractive head, strong frame, and a perfect bite round out this nice female. This pedigree includes Legacy and Royal Fawn on the top side along with the incredible female "Miss Clarice." Bottom side is very strong as well with the Jericho/Jeremiah and Augusto lines. Need we say anymore. The lucky purchaser of Natalie will have himself a very healthy robust production dam for years to come. We suggest a breeding to Taylor Made with his incredible staple length and density. The result should be outstanding!! Lotto winner!!

Amber Autumn Ayasha

Amber Autumn Alpacas

Status: Juvenile
Gender: Female
DOB: 2/27/2019
Color: Dark Brown
Sire: AOV Accoyo Eros
Dam: Amber Autumn Airlia
AOA#: 35590705
Comes with Breeding: Yes

Ayasha displays the phenotype we love to see in our paddocks. Very strong frame, attractive head, very bright dense fleece with good architecture and alignment. Her fleece photo at four months of growth since her cria shearing, does not do her justice. We know very well that she will have great staple length as both Eros and Jason produce that trait in spades. We find it amusing that the alpacas we show with the shortest staple are always declared the densest, yet when we shear, they produce 25% - 30% less than our longer stapled alpacas that were declared not dense enough. Ayasha sports a beautiful rich dark chocolate brown fleece, one of our favorite colors. Full Peruvian/Accoyo pedigree, best of the best in North America. Without a doubt, Ayasha will win her new owner several blues and banners. When of age, bring her back for her maiden breeding. We have several very nice herdsires for you to choose from!!

Red Granites Larkspur has beautiful medium brown fleece with great structure, density and fineness. As you can see in her micron test SD of 2.7 and CV of 15 are great numbers. Then you add in 0.2 microns over 30 - WOW! This combo of Sire Snowmass Reserved and Irish Meadows' My Lacy is going to continue to produce these numbers with Larkspur. My Lacy has never had an SD over 3.1 since 2014 and a CV over 16.8. Soooo, our recommendation for Larkspur's breeding would be Red Granites Val D Lsere the three time AOA Supreme Champion and 20 time Judges' Choice winner. Red Granites Larkspur is going to help improve any herd. If you have any questions about Red Granite's animals, please give us a call Marc 303-906-7739 or Sharon 303-906-4279.

Amber Autumn Nivia's Dream

Amber Autumn Alpacas

Status: Juvenile
Gender: Female
DOB: 4/28/2019
Color: White
Sire: Snowmass Wings of Legends
Dam: Amber Autumn Nivia
AOA#: 35590736
Comes with Breeding: Yes
Suggested Service Sire: Amber Autumn Albany

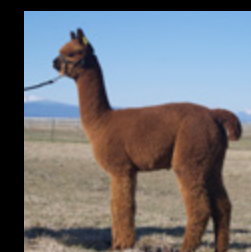

"A picture is worth a 1,000 words" certainly applies to Nivia's Dream. Understandable when you look at the photos of her sire and dam! Not sure what one does to improve this female? Incredible phenotype, fabulous pedigree, stunning fleece!!! Elite Legend son crossed over Accoyo America Jason. 16 great great grandparents of all the best genetics in North America. Dream's fleece is incredibly bright, silky soft, exhibits outstanding fineness, alignment, character, & uniformity. Granddam Naomi, EL Senior X Amber Dixie, is an incredible production dam. Appears that her daughter Nivia is as well. We suggest a maiden breeding to "Albany," son of our National Champion, "Amber Autumn Moonshine." He is incredibly dense, has massive staple length, retaining fineness nicely but we are most impressed with his neck staple length. Dream is going to win multiple blues and banners for her new owner; sells with our full ranch guarantees! Who would not want to have a pasture full of "Nivia's Dream"???

Suggested Service Sire:
